

Accessories / Assembly kits for leak detector type V8:

Artikelnr. Part.No.	Description	Material	
42001065	<p>Assembly kit for leak detector type V8, connected to: - double walled bottom of storage tanks Alternative to p/n 42005361 Consist of: - for suction line - ball valve, condensate vessel 1ltr, liquid barrier - for measuring line - ball valve, liquid barrier - Connectors: tank 1 inch, connection lines 8 mm outside tubing diameter - material: brass</p>	Brass	
42001068	<p>Test valve kit for leak detector type V8, connected to: - double walled bottom of storage tanks Consist of: - Ball valve - Tank connector: 1 inch - Material: brass</p>	Brass	
42001067	<p>Exhaust Assembly kit for vacuum leak detectors Consist of: - liquid barrier - condensate vessel - fixing plate - Connectors: 8 mm outside tubing diameter - material: brass</p>	Brass	
42001307	<p>Manometer kit for leak detector type V80Ex, V90, V8, V33, connected to: - Measuring line Consists of: - Manometer -1 bar - T-connector - Connectors: 8 mm outside tubing diameter - Material: stainless steel</p>	Stainless steel	
42006001	<p>Assembly kit for leak detector type V8 for assembly to double walled pipes consisting of - tank connection 1/4" -1x liquid barrier in suction line - T-fitting to measuring line - connectors for 6mm (outside tubingØ) - ball valve at the end of the pipe - Material brass</p>	Brass	
42006002	<p>Assembly kit exhaustline to assamble to an vacuum leakdetector in case exhaust line can not be lead back to the tank consisting of -1pc liquid barrier -water trap -mounting angle -connection lines for 6 mm outside diameter - Material brass</p>	Brass
