

Accessories / Assembly kits for leak detector type V80Ex N:

Artikelnr. Part.No.	Description	Material	
42001122	<p>Assembly kit for leak detector type V80Ex, V90, connected to:</p> <ul style="list-style-type: none"> - Above ground double walled tanks <p>Consists of:</p> <ul style="list-style-type: none"> - 3 pcs. flame arrestors (for suction-, exhaust- and measuring line), explosion group IIA, temperature class T4 - 1 pc liquid barrier - 3 pcs condensate vessels - Connectors: tank 1 inch, connection lines 8 mm outside tubing diameter - Material: brass 	Brass	<p>The diagram shows three main components: 1. Saugleitung (Suction line) with a flame arrestor and liquid barrier. 2. Messleitung (Measuring line) with a flame arrestor and liquid barrier. 3. Auspuffleitung (Venting line) with a flame arrestor and liquid barrier. Each component is shown in a cross-sectional view with detailed labels for parts and materials.</p>
42001590	<p>Flame arrestor kit for leak detector type V80Ex, V90, connected to:</p> <ul style="list-style-type: none"> - tanks with a protective lining system <p>Consists of:</p> <ul style="list-style-type: none"> - 3 pcs. flame arrestors for suction-, exhaust- and measuring line, explosion group IIA, temperature class T4 - Connectors: 6mm outside tubing diameter - Material: brass 	Brass	<p>The diagram shows three different models of flame arrestors, each with a detailed cross-sectional view and labels for parts and materials. The models are labeled as 'Flame arrestor for suction line', 'Flame arrestor for exhaust line', and 'Flame arrestor for measuring line'.</p>
49303284	<p>Water trap with mounting angle for leak detector type V80Ex, V90</p> <ul style="list-style-type: none"> - connectors for 8 mm (outside tubingØ) - for assembly at the lowest point of the connecting pipe - material brass 	Brass	<p>The diagram shows a vertical water trap assembly with a mounting angle. It includes a detailed cross-sectional view and labels for parts and materials. The assembly is designed to be installed at the lowest point of the connecting pipe to collect and drain any condensate.</p>

Accessories / Assembly kits for leak detectot type V80Ex N:

Artikelnr. Part.No.	Description	Material	
42001904	<p>Assembly kit for leak detector type V80Ex, V90, connected to:</p> <ul style="list-style-type: none"> - Above ground double walled tanks <p>Consists of:</p> <ul style="list-style-type: none"> - 3 pcs. flame arrestors (for suction-, exhaust- and measuring line), explosion group IIA, temperature class T4 - 1 pc liquid barrier - 3 pcs condensate vessels - Connectors: tank 1 inch, connection lines 8 mm outside tubing diameter - Material: stainless steel 	Stainless steel	
49303286	<p>Water trap 175 ccm with mounting angle for leak detector type V80Ex, V90, V33</p> <ul style="list-style-type: none"> - connectors for 8 mm (outside tubingØ) - for assembly at the lowest point of the connecting pipe - material stainless steel 	Stainless steel	
49302901	<p>Liquid barrier for leak detector type V80ExVA, V90VA, V33</p> <ul style="list-style-type: none"> -1/4" female screw thread -3/4"external screw thread - materal stainless steel 	Stainless steel
